WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

- Tube 194 OD x 2, 410 long
- Roll a 3 bead 20 from the rear end so the duct cannot pull off
- Sits in the two crown saddles; held with two band clamps
- Its front end is 50 past the pipe mouth, under the hood
- Check: the duct end slides over it by hand
